

Recharge Information

The Molecular Instrumentation Center is administered through the Department of Chemistry and Biochemistry, and recharges are submitted electronically each month for campus users who have established recharge accounts in the department. Campus users from other departments are requested to contact Arlette Silva (avs@chem.ucla.edu; X50821) to establish an account for recharges.

Campus users who do not anticipate becoming regular users can provide a P39 form. Contact your own business office to obtain the form.

Non-UCLA users will be invoiced.

For current recharge rates, contact the relevant MIC staff member.
